SUMMARY

Dynamic and results-oriented Business Intelligence Consultant with a strong background in data analysis, machine learning, and business intelligence solutions. Highly proficient in leveraging advanced data analytics and Qlik Sense to deliver actionable insights and optimize business operations. Demonstrated expertise in solving complex problems and driving operational efficiencies, with a proven track record of success in both data science projects and consulting environments. Passionate about delivering tailored BI solutions, improving decision-making processes, and supporting clients with innovative, data-driven strategies.

EDUCATION

Hacettepe University

B.Sc. in Statistics; GPA: 3.12/4.00 - (Honors Graduate)

Ankara, Turkey

Sep 2018 – Jun 2023

- Received comprehensive training in Database Management, focusing on database design, query execution, and performance optimization.
- Completed an advanced course in Data Mining with R, building statistical models for data analysis and visualization.
- Gained hands-on experience with Big Data Analytics tools (KNIME, Spark, H2O), processing and modeling large datasets for actionable insights.
- Led a data analysis project using KNIME to predict market trends, which resulted in 10% improvement in accuracy of market forecasts.

WORK EXPERIENCE

BI Technology Qlik Master Reseller

Business Intelligence Consultant

Istanbul, Turkey

Jan 2025 – Current

- Leading projects involving data extraction, transformation, and loading (ETL), ensuring high-quality data integration from multiple sources into Qlik Sense applications.
- Collaborating closely with business stakeholders to gather requirements and provide actionable insights that support strategic decision-making processes.
- Designing and developing comprehensive Qlik Sense dashboards, focusing on business-specific KPIs, enhancing the reporting capabilities of the client.
- Handling the end-to-end process of Qlik Sense application deployment, from initial setup to ongoing maintenance and optimization.
- Providing technical consultation and recommendations to improve the client's data analytics environment, ensuring the optimal performance of Qlik Sense architecture.

Jr. Business Intelligence Consultant

Jan 2024 – Jan 2025

- Assisted in the design and development of Qlik Sense dashboards for various clients, ensuring data visualizations met business requirements.
- Collaborated with senior consultants to analyze business needs and translate them into data-driven solutions using Qlik Sense.
- Performed data cleaning and preprocessing tasks, including the extraction, transformation, and loading (ETL) of client data into Qlik Sense.
- Contributed to the creation of detailed documentation for Qlik Sense applications and reports, ensuring a clear understanding of project scope and functionality.

Technical Consultant

Aug 2023 – Jan 2024

- Delivering comprehensive software support for Qlik Sense and Qlik NPrinting products, ensuring seamless functionality and user satisfaction.
- Managing and optimizing system configurations for Qlik Sense and Qlik NPrinting, contributing to system performance and reliability.
- Identifying and resolving complex environmental issues related to TCP/IP, Websocket, Database connectivity, and issues caused by Windows patches, ensuring minimal system downtime.

E-Kalite Yazılım

Ankara, Turkey

Data Scientist

Aug 2022 – Oct 2022

- Improved model accuracy and precision by implementing machine learning and deep learning algorithms.
- Optimized data analysis processes, resulting in reduced project timelines and increased on-time delivery rates.
- Enhanced data processing speed by leveraging Spark for handling large datasets.
- Reduced SQL query durations and improved data access performance through optimized database operations.
- Supported data-driven decision-making by generating actionable insights through data visualization tools.

Data Science Intern

Jun 2022 – Aug 2022

- Developed a machine learning model in Python to predict house prices.
- Executed data cleaning, merging, and querying tasks using SQL and Python.
- Created interactive data visualizations to support data analysis and reporting.

SKILLS

Programming: Python, R, MySQL, MSSQL, SQLite

Technologies (Comfortable With): Git, PySpark, KNIME, Jupyter Notebook, Tensorflow, Scikit-Learn, Numpy, Pandas, Plotly, VS-Code, Markdown, LaTeX, RStudio, Qlik Sense, Qlik NPrinting

Technologies (Experienced With): Playwright, Linux, R-Shiny, Minitab, SPSS

Languages: Turkish (Native), English (Professional working proficiency)

ACHIEVEMENTS

BTK Academy 2023 Datathon	Best 3% Competitors Solution Link
TÜPRAŞ 2023 Generation Datathon	Best 3% Competitors Solution Link
KPMG Data & Analytics Challenge	Best 1% Competitors Solution Link
GDZ Elektrik 2023 Datathon	Best 10% Competitors Solution Link

PROJECTS

Sales Analysis End to End Machine Learning Project | [GitHub](#) | [Web App](#)

- This project is an end-to-end machine learning initiative aimed at analyzing, visualizing, and predicting sales data. The project combines data analysis, business intelligence integration, and machine learning applications to provide valuable insights.

Analyzing Sleep Quality and Health & Predicting Stress Level | [GitHub](#) | [Web App](#)

- The main objectives of the project are to analyze and visualize the data related to health, lifestyle, and demographic factors, derive actionable insights from the visualizations, and predict stress levels of individuals using machine learning techniques.

All my projects | [Website](#)

- You can see all my projects and portfolio on my personal website.

CERTIFICATES

Data Science with Python	Bilgeadam Akademi Certificate
Data Scientist with Python	Datacamp Certificate
All My Certificates	On My Github Certificate
